

Something About You

Vocals - Susi D

Guitar - Anthony Scott

There's something about ya baby
Something about ya baby that I can't explain
Somethin' about ya baby
Something about ya baby, like falling rain
Lost another night, just thinkin' about ya
Am I wrong or right, just thinkin' about ya
Someone help me out, I'm feeling helpless
Emotional attack killed all defenses
Yet somewhere in the dark, I found an answer
A touch of understanding, a little laughter
chorus...can I touch your face again?
The soul behind those eyes, is speaking to me
reaching right through me
Don't compromise, don't keep it inside
there's no need to hide
Stand back and watch u from a distance
emotional defense lost all resistance
Now I've turned around, I can't touch the
ground when I'm near u
All was lost, look what I've found
can u hear me baby?
Somethin' about ya baby,
Look what you've done to me baby
I thought my angels up and left me, I tried to
give my soul when it was empty
Now I stand before u with my heart on the
floor, I feel naked
Don't understand it, never been here before,
will u take it baby?
Can I touch your face again baby?

Won't Be Back

Vocals/guitar - Susi D

U only love me when I'm leaving, honey
U only want me when I'm gone
You only love me when I'm leaving, baby
Won't u spread your love around
How many times have I reached out 4 u
And you turned away?

How many times have I tried to hold u,
Or beg u 2 stay?
How many times have I said 'I love u'
Without a reply?
If u would only smile, and reach out 4 me
I'd feel so alive, but u...
Oh no, here I go again, and I won't be coming
around with the summer wind
I'll leave this love behind
And I won't be back this time
Do u remember the time when it was so easy
2 hold my hand
Wrap your arms around me baby
Don't u understand that..

Just Because

Vocals/Keys - Susi D

Guitar - Anthony Scott

I never meant to hurt u babe
But I lost myself along the way, and I'll
find myself again before too long
And I know how much it's hurting u
To see me act the way I do
But I think it's better that we both move on
Silence on the phone
Have to face this all alone
Just because it's right for u
Doesn't mean it's right for me and
Just because you've thought it through
Doesn't mean we were meant to be
Now it's been some time since we're apart
And I've found myself a brand new heart
And I'll hold it dear and treat it like my own
And if there's one thing that I've found from
life, it's, don't give up without a fight, but
Some things are better left alone
You'll get over me
And one day you will see that...
If you love someone, then set them free
set them free
Just let me be, and set me free
You'll get over me, it won't take long
you'll see that...

Some People

Vocals/guitar - Susi D

Some people will drive u crazy
Some people will drive u mad
Some people will turn against u
love them anyway
Some people will try 2 hurt u
Some people will make u cry
Some people will start 2 hate u
love them anyway
U can't see the fire burning
But the smoke will sting your eyes
Venture out into the tall grass
Where the demons lie
Movin on with pure intention,
Open hearts will see them all
Turn your soul out to the angels,
Watch the demons fall
Some people will always be there
Some people will take your hand
Other hearts, a different story
love them anyway
Some people will always love you
When love has gone away
Despite what's gone before them
They'll love u anyway

Turn away

Vocals/guitar - Susi D

U have no right to cry
It's my heart that's breaking
Your eyes should still be dry
I've lost control, my body shaking
Don't turn and comfort me
That's no consolation
Can't u hear, don't u see?
I'm choking with emotion
Turn away
U have no right 2 cry
I never saw this coming
U don't even want 2 try
2 salvage any lovin'

U never talked 2 me
I never saw u open
U say I wasn't me
How can I know what isn't spoken?
I turn away
I turn away so u don't look me in the eye
I swear 2 god, you'll never see me cry
And I don't understand your reasons why
You're leaving
U have no right 2 cry
We'd barely even started
And now I wonder how
We ever had a chance, and
Although we might be friends
Those words won't be spoken
And in the end
Here lies a heart that's broken
I turn away
I turn away, this can't be happening again
All this love, worth nothing in the end
And if I scream out loud, I'll lose another
friend....you're leaving

Thankyou.
